

Have you got what it takes to make a difference?

If you think a career in health sounds interesting and might be for you, don't miss this opportunity! Apply now!

Be part of Student Health Academy for Year 10 students

Ever thought of pursuing a career in health but unsure which one might be for you?

Even though you still have three years at school you might be thinking that a career as a health professional may be for you... but which one?

Nursing, Physiotherapy, Podiatry, Medicine, Paramedicine, Speech Pathology, Social Work, Pharmacy, Occupational Therapy, Medical Imaging and more

Academy Dates :

The Academies are held in Terms 1, 2 & 3, each over two Fridays a fortnight apart.

During the two-day program you will:

- Talk to local health professionals and university health science students
- Get active with some skills that health professionals do in their work

At the end of the two-day program you will:

- Have a clearer understanding if a career in health is for you
- Have a greater knowledge of the range of health careers
- Understand where you can study and what you need to get into courses

Parents & Teachers

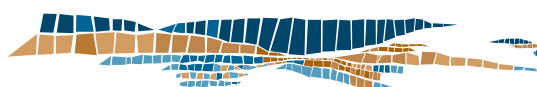

The students will be immersed in experiences to support and develop their understanding of options for health careers. All activities are supervised by our staff in a safe environment

For more details:

Contact the Simulation Educators at the WA Centre for Rural Health (WACRH) on 9956 0210 or email edsim-wacrh@uwa.edu.au. WACRH is located at 167 Fitzgerald Street, Geraldton.

Application:

Application forms are available at your school or can be requested by emailing edsim-wacrh@uwa.edu.au. Applications require parent/guardian and school permission.
