

Student Technology Device

At Nagle Catholic College, students supply their own technology device to assist with their learning. The 'Bring Your Own Device' (BYOD) program enables students entering the College in 2019 to choose the device they prefer.

The Leading Lights project, initiated by Catholic Education Western Australia, strongly advocates for schools to embrace Cloud based computing and the integration of Office365 tools.

The information below is intended to assist families in identifying and purchasing suitable devices for their children. Families will need to approach retailers directly or source their requirements from online services.

Regardless of the device chosen, the table below sets out the essential minimum specifications.

Accessories			

Please note there is no specified device which must be purchased. Rather, families should choose the most appropriate device to suit their situation. iPads are not a preferred device as they have limitations in regard to functionality when using our preferred software. To assist with choosing a device, families are encouraged to take this information with them to individual retailers.

It is expected that all of the above devices will perform at a reasonable level within the College's network environment.

For general enquiries, please contact Mr Rohan Fariss, Director of Students – Year 7, (rohan.fariss@cewa.edu.au).

For technical enquiries, please contact Ms Phoebe Bennett, Digital Learning Coordinator, (phoebe.bennett@cewa.edu.au).
